How 7shifts helps your restaurant

Stay connected with your team

Keep your entire team informed with built-in chat, announcements and shift feedback. Publish new schedules directly to your staff's email or mobile device.

Manage your team's availability

Your team can submit time-off and availability requests directly through their free mobile app for management approval. Quickly find staff to cover last-minute absences and fill open shifts with ease.

Easy schedule based on your changing labor needs

Complete your scheduling in minutes with our simple drag-and-drop schedule builder that automatically factors in overtime, availability and regional labour laws.

Optimize your labour operations

Make smarter, labour-saving business decisions by integrating your POS and payroll to track real-time variances in sales and labour. Easily identify opportunities to lower your labour costs.
