## Recruiting: Our 3-tier system to find perfect candidates

### Job boards

Many of the "job boards" like Indeed, scrape, re-post and aggregate our jobs due to our massive traffic

### Social media

We use LinkedIn, Instagram Facebook, and other social medias to screen, recruit and hire the best available talent.

### In person, video calls

We hold regular in person Career fairs, as well as connecting through video calls. We use the human touch.

We actively search for young professionals that are seeking opportunities in today's job market. We offer them advanced, dynamic training, grooming them to possibly/eventually become a part of your team long term. All staff undergo a video interview, an exhaustive social media deep dive, a voice call, and an orientation before hire.
